

The Favored Styles in Women's Fall Coats

The Autumn chill in the air and the Autumn tints gradually appearing give sufficient hint that, afforded the proper opportunity and selection, it is time to purchase your Fall Garments. Many up-to-the minute styles in Fall Coats, with loose backs, also belted and semi-fitting. These come in a variety of beautifully soft Autumn shades.

Misses' Coat in Brown Heather Mixture of soft wool coating lined in the body and sleeves with twill merized sateen. The back is trimmed with heavy silk stitching and two large tabs finished with buttons. Price \$30.00

Misses' Coat in Fine Brown Cheviot lined in body and sleeves with twill merized sateen, and trimmed on the collar, cuffs, pockets and back with silk twist stitching and fancy buttons. Price \$30.00

Reindeer Velour Coat, lined in the body and sleeves with satin finish venetian. The collar, cuffs, back and pockets are trimmed with silk twist stitching. Price \$35.00

Misses' Mannish Coat with an inverted pleat back, Raglan sleeves and lined in the body and sleeves with satin finish venetian. Comes in brown with light brown overcheck. Price \$40.00

Wrap Coat of Taupe Duvetyn lined throughout with fancy satin, and finished on the collar, cuffs and back with silk stitching. The sash belt can be worn across the back if desired. Price \$55.00

New Arrivals in Sport Skirts

For all sports and between-seasons' wear, the pleated skirt is accepted as being the most useful of garments. Whether it be striped or plaid is a matter for the individual to decide. There are styles and colors here to meet with every fancy and the price is an inducement in itself.

Ladies' Pleated Skirt, with horizontal stripes on the sides, and belt with novelty buttons; in green ground with groups of light colored narrow stripes.

Ladies' Skirts of Stripe Material, with box pleats in dark colors and inverted pleats showing the stripe, and finished with narrow belt and buckle.

Ladies' "Simply Made" Plaid Skirts, the only trimmings are made of the same material in pockets and belts.

Newest Autumn

Millinery in Splendid Display

We are now showing an attractive range of the new Fall Millinery, featuring trimmed hats of duvetyn, hatter's plush and velvet, in such shades as grey, navy, brown and black. In Vanity Fair

For discriminating women we are showing charming modes in plain and fancy voile dresses, waists, cloaks, suits and lingerie.

à la Grâce Corsets

Our Corset department is always ready to fit you comfortably with the correct model C/C à la Grâce Corsets.

WHY SHOULDN'T WE TELL IT?

We're awfully pleased with two lines of Men's Suits that have come in lately, and why shouldn't we tell it? One line is a Canadian Bannockburn that we can sell for \$29.00. It's like old times. The other line is a beautiful Blue Serge that was \$75 last September; it's only \$50 this September.

We've got the house cleaning microbe awfully bad. It keeps breaking out in so many places, too. The last place it manifested itself was in the Men's Felt section.

Listen: — For the month of September our slogan is "No Hat Over \$5"

This includes values up to \$8.00

There are so many uses for Sweaters that it is hard to enumerate them. Almost every one can find real need for them. Just now while the hunting season is on we are showing some real values.

This year's prices show a decline of about 40% right through the line. We commence the Men's sizes at \$3.40 and run them up to \$12.50. The price on the lazier line was \$20 last year.

Brumpton & Gaetz, Limited

COUNT YOUR BLESSINGS

After a half-hour with Herb I all ways go away feeling that he has given me a hypodermic injection of optimism. For he certainly does get under my skin. Today's chat for instance, has altogether convinced me that the country has passed all of its after-war ills and is on the way to national and industrial health and prosperity. Herb's announcement, and the emphatic under sweep of his palm positively forbade any challenging of the statement. And still under the hypnotic spell, I am in the papers to see the first symptoms recorded.

"If next winter could go into court he would enter action against some people for defamation of character," justly declared Herb. "He is not going to be so hard as he has been painted by the fearful press. There is a class of men preaching disaster who will be disappointed if their doleful prophecies are not fulfilled. Look at the conditions. First, living costs are down. Sugar is one-third of last August's price. Soap is down one-third. Rice is 7 cents a pound against 21 a year ago. Lard is down. A 50-pound sack of rolled oats or corn meal sells for about half. And do not forget that people have gradually resumed a corned-beef-and-cabbage appetite. Plants which have been closed during a month or two are not necessarily shabby. Many deliberately closed now; that they might be sure of continuing busy all winter when conditions are more unfavorable than at present. The United States woolen interests of the eastern states have just taken on 5,000 more men. The standard steel plant at Welland, closed for eighteen months, has reopened in full force. The Transcona car shops have resumed with a record corps of men working 48 hours a week. The new program of the Welland canal commission includes steady activities all winter.

"All we need now is to advertise the good news. The Good Book tells us that faith is the substance of things hoped for and the evidence of things not seen. So let us advertise the substance. During June and July three of our salesmen spent their time moping around and holding calamity meetings with their customers. First of August I sent each of these fellows a love letter telling them about two other salesmen in our house who had actually broken the record for sales during the dark months. I added a sentence telling them to put on the easy pedal on several lines, for fear we would be sold out. Well, the result was that my laddies awoke from their torpor, put on a new mental attitude, went out and conquered. Just for spite, they paid special attention to the lines I had warned them against, sending in such large orders that we were actually puzzled about supplying the goods.

"It's a time to count our blessings, as the hymn says. Think, for instance, of our Victory bonds selling more favorably than the United States Liberty bonds are anywhere from \$7 to \$1. Friday's New York papers carried their financial pages with a fine advertisement for Canada in the simple statement that the 'lowest price for our Victory bonds was \$98.54 while the lowest Liberty bond price was \$87.34.

"Let the young chap about to marry count his blessings. While in Chicago last week I called up a newly-married Canadian boy whose work is in Chicago. He seemed a bit reluctant in asking me to come out to their apartment, even though he and his bride had declared that I simply must put up at their place when next in their city. The reason was that they were jammed into two little fourth-story rooms about as large as a bathroom. About their huge tenement were miles of treeless, grassless streets lined by endless rows of ugly, square apartment houses, filled with a migrating host of children couples for whom no real social life relieves the dreary tedium of evenings spent in their combined parlor-bedroom-dining room. Say, that couple would swap their all to get back to Canada with its wonderful homes and its fine social advantages. When you have a pessimistic spell on, journey out and see the cute little Jungles and

semi-detached houses going up in the suburbs of many Canadian cities for newly-weds. Then come home and say a prayer of gratitude for all the blessings showered on Canadian people."

THE VOLUME OF WORLD TRADE

Ottawa Journal:

"It has been calculated by a competent authority that the international trade of the world in 1920 amounted to approximately \$100,000,000,000. When war broke out in 1914 the volume was but \$40,000,000,000, and in the difference we see the extent of inflation. The serious problem which confronts all nations today is how to get back to a sound trade basis, with the unnatural conditions developed by the war out of the way. Prices are steadily falling, and in the shrinkage which has occurred in the exports and imports of all countries it has been estimated that at least 50 per cent. is due to lower values. Since the advance was about 150 per cent., and 50 per cent. on the side of decrease is equal to but 50 per cent. on the up grade, it will be seen that we are still some distance from complete de-

flation. World trade has grown to its present proportions from a total of \$16,000,000,000 in 1870. Allowing for changes in values, it is obvious that there has been a vast betterment in productivity on one hand and capacity to absorb on the other. Canada's share in this development has been considerable. Fifty years ago our total foreign trade amounted to \$148,387,329. Last year it was nearly fifteen times that volume, as reckoned in dollars and cents; so that we have done much better than most nations. In fact, not more than three other countries have done relatively as well. On the industrial side, our exports of manufactures have increased during that period from less than \$5,000,000 per annum to \$450,000,000. And we shall continue to do well; for we have the resources, the skill and the courage. It might be said in all sincerity that we have but fairly begun to demonstrate our commercial potentiality. In the meantime, however, we shall have to share with the rest of the world the inconveniences and hindrances which are inseparable from readjustment.

"Job printers in Toronto who have been on strike have appointed a committee to promote co-operative job printing shops.

ITEMS OF INTEREST

J. H. Sinclair, M.P., for Antigonish and Gushoro counties in Nova Scotia since 1917, will retire from public life.

Walking in his sleep, Edward O'neary, 23, of Montreal, fell two stories and landed on a brick pile, sustaining fatal injuries.

James H. Bridger, 25, of Sarnia, Ont., lost his life when a well in which he was working caved in and buried him.

Sir Robert Borden has been elected a member of the board of directors of the British-American Nickel Corporation, Ottawa.

William Phillips, of Montreal, has been appointed European manager of the Grand Trunk railway with offices in London, England.

Brig-Gen. Ross, M.L.A., of Kingston, is likely to be the federal candidate there and Sir Henry Drayton may run for one of the Toronto seats.

At a meeting of the Ontario hydro-rail association held in Toronto, a resolution was unanimously adopted calling upon the provincial government to authorize the hydro electric power commission to commence at once construction of the radial lines for which bylaws have been carried.

The Canadian Bar association in the near future will present Sir James Aikens, K.C., with a portrait of himself, painted by a leading Canadian artist, in recognition of his valuable services to the association.

A mass meeting of the various labor unions of Toronto is to be held for the purpose of selecting candidates to carry the honors of the labor forces in the Toronto seats and York county in the forthcoming general election.

RED DEER U.F.A. CONVENTION TO BE INTERESTING ONE

Will the Out-reported Differences Between Wood and Greer Come to a Head There?

Calgary, Alberta, Sept. 9.

H. W. Wood, president of the U.F.A., continues that decided reticence which he has maintained ever since the organization decided to enter politics. He refuses to be drawn into any conversation regarding the political situation, and on Thursday when shown a clipping from the Red Deer News, which suggested that the question of the selection of a candidate for the Red Deer riding may bring on a conflict between the Greer and the Wood forces, he read it carefully, and after a pause passed it back to the reporter with the brief remark, "I have nothing whatever to say regarding this."

The editorial referred to was published in the Red Deer paper on Wednesday and reads as follows: "The next thing is: Will the U.F.A. organization in the Red Deer riding support Dr. Clark as its candidate? A little bird whispers that they will not. Some even go as far as to predict that the question of the selection of the candidate in this riding may bring on a conflict between the Greer and the Wood forces, whatever they mean by that."

The central offices of the U.F.A. have been very quiet during the past few weeks owing to the great majority of the members being busy on the land gathering in their harvest, but as soon as harvest operations cease it is expected that the offices will again become busy with members from all parts of the province.

FREE AT LAST OF KIDNEY TROUBLE

"Fruit-a-lives" Brought Her Health and Strength

624 CHAMPLAIN ST., MONTREAL

"For 8 years, I suffered constantly from Kidney Disease and Liver Trouble. My back was miserable and aching in the way of ordinary medicine did me any good."

Then I started to use "Fruit-a-lives" and the effect was remarkable. All the pains, headaches, indigestion and constipation were relieved and once more I was well.

All who suffer from such troubles should take "Fruit-a-lives".

Madam HOHMIDAS FOISY.

80 HEAD OF STOCK WERE RUSTLED

Another Chapter in Sensational Cattle Stealing Case in Southern Alberta; Two Men Committed for Trial.

Lethbridge, September 7.—Another chapter in the sensational cattle rustling case that has stirred the border stock country for miles on both sides of the boundary was written last night in the committing for trial before the supreme court of Alberta of James E. Leach and James Muir, well known Northern Montana ranchers, by Magistrate E. N. Barker, who presided over the preliminary hearing at the Lethbridge court house.

The story of the rustling up of the 80 head of stock was told in the official report of the examination at the St. John's court house, Lethbridge, on the 2nd inst. The story was told in the official report of the examination at the St. John's court house, Lethbridge, on the 2nd inst. The story was told in the official report of the examination at the St. John's court house, Lethbridge, on the 2nd inst.

WHAT PART OF U.S. WON GREAT WAR

General Pershing Resents the Suggestion of Sam Gompers That Labor Was Responsible for It.

Washington, September 8.—General Pershing and Samuel Gompers had a tiff last night at a dinner given at the conclusion of the exercises here celebrating Lafayette's birthday. At the least official Washington regards it as a clash over the question of whether labor won the war.

Mr. Gompers had spoken on the after-dinner program, and while he made no claim that labor won the war, he did tell of the record of the American Federation of Labor during the war and declared that previous to the entry of the United States its sympathy was with the cause of the allies.

Gen. Pershing, however, apparently regarded Mr. Gompers' remarks as a claim that labor had won the war. Some of those who heard his remarks quote him as having said, substantially: "The policies of this republic are not determined by labor unions or by any other organizations, but by the consensus of opinion of its patriotic citizens of whatever affiliation."

"I want to say that every American is a patriot whether he belongs to some labor organization or is just an ordinary citizen, and that it is not a question of labor unions. It is not a question of any organization. It isn't a question of whether we belong to some association or not."

"It is a question of whether we are loyal citizens of the United States. It seems to me about time for us to rise up and say that America shall be ruled and governed by American citizens and not by organizations which have their own selfish purposes to serve."

The incident, however, did not develop into a debate and ended with Gen. Pershing's speech.

MADE MOONSHINE UNDER NOSE OF POLICE

But Constable Had Good Smeller and Located the Boozie.

The Peace River Standard of September 1st says: Constable Murray of the local detachment of the A.P.P. is developing to be quite a connoisseur of odors, smells one was going to say, for the other day he sniffed a not unfamiliar scent, and straightaway the source of the same was specifically located. The result was that the other afternoon, 2 p.m. yesterday to be exact, Inspector Hancock tapped at the front door while Murray covered the rear exit of the house in south town occupied by Fred Eaton, and on entering found an up-to-date whiskey still in full operation. Some ten gallons or more of bottled moonshine and forty-five gallons of mash were seized, and the whole, together with the proprietor, hauled at once before Magistrate McDonald at the A.P.P. barracks. Eaton was charged with two offences, first with being in illicit possession of a whiskey still and second with having liquor for sale. He was found guilty on both counts, and in the first instance was fined \$500 and costs or six months, and \$200 and costs or six months in the second, sentences to run consecutively.

One of Canada's best food products for over 62 years.

WEDNESDAY, SEPT. 14th, 1921.

STILL IN THE DARK

Another week has passed without a positive answer to the question, "Will the Farmers nominate Dr. Clark?" In the meantime the Doctor seems to be carrying on about as usual. Recent press dispatches state that he will fire the opening shot in the National Progressive campaign at Prince Albert early in October.

Dr. Clark is an integral part in the National Progressive organization, and to hear people talk of twining in behind that movement and at the same time rejecting the Doctor as their candidate, reminds one of the Indian who was wandering around looking for his tepee. When asked if he was lost, the native eagerly remarked, "Indian not lost; tepee lost."

GIVE THEM A CHANCE

Somebody is always taking the joy out of life. No sooner has the old party government been ousted from office, and Premier Greenfield, at the head of a brand new Farmer Government, starts in to give the province efficient administration, than somebody starts to kick up a fuss. In a letter to the Calgary Herald, a man named Horner, hailing from Hespero, has started to "gore" the Premier already, because the said Premier is reported to have given an interview to the effect that there would be "no radical or revolutionary legislation passed" by the U.F.A. government.

"This same booklet goes on to state that if the above is correct, 'the supporters of the U.F.A. have been badly fooled,' or else 'Greenfield does not know what he was given his job for.' Evidently, after Mr. Horner has selected and elected the Premier, he is not satisfied. Mr. Greenfield seems to be laboring under the misapprehension that several sane-minded men had something to do with his selection and that Mr. Horner was not alone responsible.

Mr. Horner says, "Tax the people with the money so as to leave them with not more than \$300 income," and makes some other comments, till one is reminded of a recent statement by President Harding in the effect that "the trouble with the world today is that there are too many theorists who know nothing of actualities." Then, as if to give unmistakable evidence that he doesn't know actualities, Mr. Horner refers to the Municipal Hospital scheme as a "Stewart government production."

He concludes with the statement: "Just use the threat of the recall and we'll get the goods." He says that it is the fault of the central executive for not sending in the members' resignation, if radical legislation is not passed.

That signed resignation stunt is the same kind of recall that the eastern farmer made use of when he shot the dog that started to run after the cows. It is a system of political guilotine, with the victim giving the license to operate it.

Despite the profession of "equal rights to all and special privileges to none," the signed resignation is the embodiment of special privilege, a form of recall which none except the U.F.A. executive are allowed to operate. No form of recall is worthy of the name unless its provisions may be put into operation by any substantial body of the electorate.

Then, as if the new Premier did not have troubles enough to contend with, some editors proceed to stir up a dust because only thirteen of the U. F. A. members-elect have signed their resignations. It is evident that the majority of the U.F.A. executives favor an equitable recall measure and have little sympathy with the signed resignation idea. Lord help the member who would be at the mercy of an executive of Horner.

In all conscience, give the Premier and his government a fortnight without worrying them with impracticable and impossible demands, before they have had time to get comfortably seated in their offices.

R. B. Welliver, E. S. Hogg, T. Edla, G. W. Muir, C. C. Gamble, S. Family, J. C. Brazier, R. A. Lund, J. D. McPherson, H. Williams, E. R. Hill, H. H. Moyes, P. E. Kent, and Alderman Stone and Goodey.

Correspondence was rather lengthy, there being close to a score of communications. Mr. D. A. Richardson, Chief Fishery Inspector, Calgary, wrote regarding fishing concessions for the Blindman, Waskasoo and Raven. The Edmonton Board of Trade had sent an invitation for an outing on August 25. Mr. J. M. Stevenson, resident architect, Calgary, wrote that the contract had been let for postoffice fittings. Mr. Alexander P. Dyrburgh, mechanical and electrical engineer, of Norbury, London, Eng., wrote re locating in Red Deer. Other letters from prospective farm and business settlers included one from H. W. Farmer, an Idaho veterinarian; H. C. Brock, L. Chevalier, condensed milk manufacturer; C. Omer, of the Northern Navigation Co., and others. Mrs. E. Gibson, Eckville, inquired about pianos for sale or hire; John Mutter, of Chicago, wanted the names of real estate dealers. Mr. F. W. Kerr, immigration lecturer, Liverpool, Eng., wrote thanking the Board for views. Mr. P. L. Kolb, of the National Hotel, Hanna, wrote for "auto road map." The Associated Board of Trade of Western Canada sent an invitation to a conference, and the Calgary Board of Trade wanted information on the livestock situation. Heat-on's Annual wrote soliciting advertising.

Mr. G. M. England wrote on behalf of the Veterans' and Citizens' Band to enlist the sympathy and help of the Board in keeping Bandmaster Fullerton in Red Deer. The members of the Board will let them know if he secures his local work.

The Brandon Board of Trade and Civic Centre wrote requesting that this matter had been referred to the wholesale houses for an expression of opinion. The following resolution was the result:

Moved by Messrs. A. H. Moyes and R. B. Welliver:
"Whereas Freight Classification No. 16 has been in effect for a number of years, and has worked satisfactorily, and whereas under this classification much money has been invested in building up wholesale houses in small distributing centres;

"And whereas the suggested changes of freight classification will seriously affect wholesale houses in the small distributing centres to the advantage of large companies in larger centres, and depreciable investments made;

"Therefore, be it resolved that the Red Deer Board of Trade strongly opposes the suggested changes in freight classification, but in the interests of the railways approves of the raising of the minimum car rate." Carried.

Report of Secretary.
The President and Members, Red Deer Board of Trade.

Gentlemen—I beg to report on the work done since the last regular meeting as follows:

Mr. Stevenson, resident architect for the Dominion Government, was in Red Deer on August 26. He informed us that the contract had been let for the postoffice fittings to a Calgary firm, and we urged him to get the work started as soon as possible and completed without delay.

The Dominion Government called for tenders for filling the excavation on the postoffice site. These have been sent to Ottawa and he has no information as to whether this work will be done this year or not. He agreed to recommend to the Dominion Government the immediate purchase of the Armoury. The Government is leasing for three years the old Empress theatre building to be used as headquarters for the Battery.

The committee appointed by the Council of the Board, Messrs. C. C. Gamble, R. L. Gaetz, E. G. Stone and H. J. Bayly, to arrange for getting out the vote on the Hospital scheme, worked faithfully during voting, and nearly all available votes were polled through their efforts.

We attended the two conferences in Edmonton as representing the City of Red Deer, to discuss the unemployment question. President Botterell also attended on behalf of the G.W.V.A. We succeeded in getting Red Deer placed in the programme for relief work during the winter.

We urged on the new Provincial government the necessity of building the bridge over the Red Deer river east of Red Deer this winter, without fail, and we are pleased to report that assurance has been received that this will be done.

We also suggested to the Government through the conference that gravel might be taken out of the river during the winter, hauled to the roads and used in the spring to gravel the C. & E. highway north and south of Red Deer, and that single unemployed men might be used to cut firewood close to railways and ship it to the cities for fuel.

We believe that sufficient work will be provided to relieve the unemployed during the winter so far as the actual residents of Red Deer are concerned.

We finally received from the Alberta three new cuts to replace those loaned to it last year, which had not been returned and which they had lost.

We have compiled the information submitted herewith regarding livestock and poultry from the 1921 census returns. This shows the standing of the Red Deer federal riding in the ridings of the Province.

We are informed that material has been shipped to re-cover the traffic bridge over the Red Deer river. The question of repairs to the bridge approach is being taken up with the Government, and we trust it will be repaired also.

President Botterell has taken up the question of the old industrial farm by some department of the Government, and expects that some plan will be developed to make use of it.

The letter re changes in freight classification was submitted to the local wholesale grocery firms and a resolution has been prepared dealing with this question which will be submitted for your consideration.

All inquiries for information have been attended to promptly.

A. T. STEPHENSON, Secretary.

One of the members raised the matter of high local retail prices, especially in meat. A long discussion ensued in which most of those present joined. Among the suggested remedies were the encouragement of farmers to butcher and peddle their own meat; to institute a cash-and-carry campaign supported by Mr. Welliver; to not work white; and the re-opening of the Red Deer market. This last was embodied in a resolution by Messrs. Hogg and Brazier, requesting the City

Council to consider the advisability of re-opening the market. This was carried.

The meeting closed with a short discussion of the possibility of re-starting a social club of some kind for business men. Nothing definite was done in the matter.

TAX SALE

SALE OF LANDS IN THE CITY OF RED DEER FOR ARREARS OF TAXES

Notice is hereby given that certain lands in the City of Red Deer will be offered for sale for arrears of Taxes and Costs on Thursday, the 15th day of October, 1921, at 2 o'clock p.m. in the Council Chamber, City Hall, Red Deer, unless such arrears are sooner paid. IS NOW ENJOYING BEST OF HEALTH

Says Tanlar Has Entirely Relieved
Him of All Her Troubles.

"No one can realize the pain and
misery I went through, but Tanlar has
made a strong healthy woman of me,
and I can't say enough for her."

Mrs. E. Wilson, wife of a well-known
contractor of Vancouver, B.C.,
suffered from "biliousness," cases of
stomach trouble that I believe a per-
son could have, and I ate little more
than soup for several months. I had
trouble with my stomach, and at times
even a little food would cause me to
suffer from indigestion. I would blot
up with gas which caused my heart to
palpitate terribly, and often I had
dizzy spells. I had awful pains
through my back and shoulders, and
I was miserable nearly all the time.

"I kept reading and hearing so much
about Tanlar that I started taking it
myself and it has relieved me of all
my troubles. I am eating heartily and
I never have a case of indigestion any
more. Those awful pains are gone
from my back and shoulders and I am
able to go to work again. I have actu-
ally gained twelve pounds in weight,
and I'm feeling as strong and healthy
as I ever did and can do all my house-
work without the least bit of trouble."

Tanlar is sold in Red Deer by the
Gaetz-Corsett Drug & Book Co., Ltd.,
and by leading druggists everywhere.

EDIBLE AND POISONOUS FUNGI

(Experimental Farms Note)

There is a widespread lack of
knowledge among the general public
concerning the edibility of so many of
the common mushrooms growing, ex-
cept in the very dry weather in the
fields, woods or in our gardens and
lawns.

The common idea of fungi is that
they are grown commercially, and
which is also found in fields and
woods. It is a mushroom, and all others
are "toadstools" and therefore poison-
ous. The fact is, however, that "toad-
stools" are a synonym for "mushrooms,"
and mushrooms are classified either as
"edible" or "poisonous." There are natu-
rally among the hundreds of vari-
eties of mushrooms there are not
more than four or five poisonous vari-
eties. The common mushrooms are of-
ten called "toadstools" and are often
poisonous, but as some of the latter re-
semble somewhat an edible variety,
there is danger of mistaking one for
the other. All the so-called "toad-
stools" whereby one may ascertain whether a
mushroom is edible or not, are also
lately worthless, and may be classed
as old wives' tales. The only way to
know the properties of mushrooms is
by asking someone who is familiar with
them, or by studying them one by one
and making up a list of the edible
ones. Unfortunately, popular books
on fungi are not common, but several
reliable ones are available to the student
wishes to acquaint himself with the subject,
as follows:

"One Thousand American Fungi,"

McGraw-Hill, New York.

"Mushrooms, Toadstools and Other
Fungi," Hard, Ohio Library Co.

"Mushrooms," Atkinson, Henry Holt

"The Agaricaceae of Michigan," C. H.

Kaufmann, Wynkoop, Hallenbeck,

Crawford St.

Practically no mushrooms are to be
found during very dry weather, but
two of the deadly varieties are likely
to be met with after rains—the Fly
agaric (*Amanita muscaria*) and the
Death Cap (*Amanita phalloides*). The
first of these is a very conspicuous
mushroom, not resembling any other
variety in the whole range of mush-
rooms. The cap is large, from 4 to
6 inches, rounded at first, then nearly
flat, with a fresh, slightly sticky sur-
face. Its colour is subject to great
variations, ranging from orange-red to
yellow or almost white, the yellow
colour being more common. The
margin of cap in mature plants is
marked with radiating lines or mar-
gins. The surface is covered with
thick, angular, persistent scales, usu-
ally white. These scales are often
reddish and easily removed, leav-
ing the stem, gills, and rarely the
cap, shining white. The gills are
becoming yellow. Stem 4 to 5 inches
long, shining white or pale yellowish,
becoming hollow, enlarged at the base
into a conspicuous bulb, marked by
prominent, concentric, irregular rings.
There is a ring of collars on the stem,
very soft, large, white. The Fly Aman-
ita is easily identified on account of
its easily cap, brilliantly coloured,
large ring, and bulbous, ringed base.
It occurs along roadsides, wood
edges and open woods, generally from
June till frost.

The other deadly plant, *Amanita*
phalloides or Death Cap, is 2 to 4
inches broad, commonly shining white
or yellowish, but may be grey or
brown, olive to amber. It is rigid
when moist, smooth, oval, and finally
enlarged; the margin is even, not
marked with radiating lines or mar-
gins. The stem is 2 to 4 inches long,
taste, gills free from the stem,
largest at the middle, white. The
stem is 2 to 3 inches long, generally
hollow, white. The base of the stem
is inserted in a semi-free, white, cup-
shaped covering called volva. It is of
common occurrence from July to
October in woods, groves and along
border of woods. It resembles some-
what the common field mushroom, but
a slight examination will disclose
the field mushroom the dark coloured
gills and the absence of the cap at the
base of the stem. A phallodes is the
most dangerous of all fungi, and is
responsible for most of the deaths re-
sulting from eating mushrooms. Fun-
gi often grow in great numbers before
symptoms of poisoning may appear.
No antidote has been found by which
the effects of the poison may be
counteracted. A safe rule is to avoid
eating all mushrooms having white
gills, a ring on the stem and a volva
at the base of stem, combined in the
same plant.

W. S. Odell, Division of Botany.

The DeBourne Progress says: A

rather disastrous fire occurred at the

farm of Mr. Green this week of

Louisa last week. The fire started

in the grass from a spark from a

passing locomotive, and with the wind

fanned to a regular prairie fire. Con-

siderable damage was done to Mr.

Green's property before the fire could

be checked. Company fire-fighters

were called into action from as far

north as Mirror and south from Haze-
wood to assist in checking the flames.

IRELAND MUST REMAIN WITHIN BRITISH EMPIRE

ONLY ONE GREAT CONDITION
LAID DOWN.

London, September 7.—The British
cabinet has invited Mr. DeValera to
send delegates to a conference with
the cabinet ministers at Inverness on
the 10th inst. according to the
Irish press, Mr. DeValera's response
will be a further exchange of
views.

In order to allow any fear re-
garding the decision, the
Irish cabinet must not be in any
circumstances to be coerced into
any decision by the British cabinet.

Dealing with the cabinet meeting
the Daily Mail says: "The British
cabinet has invited Mr. DeValera to
send delegates to a conference with
the cabinet ministers at Inverness on
the 10th inst. according to the
Irish press, Mr. DeValera's response
will be a further exchange of
views."

The prime minister told the min-
isters that he regarded the situation
as grave and critical, and he was in-
formed that the cabinet was con-
vinced that a further exchange of
views was necessary. One minister,
who was in personal contact with
Mr. DeValera, said he was in-
formed that it was the real intention of
the cabinet to send a plenipotentiary
to the Irish people after a further exchange
of views, and to ensure that such plenipotentiary
resulted in a mandate for a conference.

TIME LIMIT NECESSARY

"After the conflicting interpreta-
tions placed in Ireland and England
on the latest Sinn Féin note were re-
ferred to the prime minister, it was
decided that it was necessary to im-
pose a time limit and ascertain, beyond
doubt, whether the Sinn Féin was pre-
pared to remain within the empire. If
not, a permanent settlement was un-
doubtedly possible. If not, further nego-
ciations were useless. The cabinet
therefore, would make another effort
to secure a permanent settlement, and
with all the blessings of peace to the
world."

Thereupon, the ministers quickly
made up their minds, and the decision
and invitation conveyed in the reply
were unanimous.

CABINET IS COURTEOUS

Inverness, Sept. 7.—In courtesy to
Mr. DeValera, the cabinet's reply to his
message will not be made public until
sufficient time has elapsed for its de-
velopment. It is understood that
further opportunity has been
afforded the republican leader to
reconsider his position carefully and
that nothing has been done in any
sense inimical to peace and good will
toward the more moderate elements
prevail.

One of the features of the day was
the prime minister's conference with
the king at May Hall, which lies about
15 miles from Inverness. This lasted
fully two hours, and was of the most
intense interest in the negotiations is
considered a most significant sign
looking to conciliation.

Viscount Fitzalan, vicerey of Ire-
land, and General Sir Neville Mac-
Creedy, commander of the troops in
Ireland, not being cabinet ministers,
were not present in the actual con-
ference, which held both morning and
afternoon sessions, but General Tudor
and other experts were in attendance
to render any aid necessary.

Robert C. Barton, the Sinn Féin
embassy, had arrived at Inverness,
overnight and was waiting at the hotel
for the reply when summoned. He is
now on his way to Dublin.

Mr. Lloyd George will return to Gar-
loch tomorrow morning.

STATEMENT EXPLAINED

London, September 7.—Despatches
from Dublin today bustled themselves
explaining that Mr. DeValera's state-
ment to the press yesterday was in-
tended to remove the idea from the
minds of the British government that
he was insisting upon recognition of
an Irish Republic as a preliminary to
the conference.

According to the Westminster Gas-
ette's Dublin correspondent, the real
meaning of DeValera's statement
was that if the Irish delegates were
allowed to enter the conference un-
transmuted they were prepared to
give every guarantee to the British
representatives.

"A free gift from a free people,"
asserts the correspondent, "is what
Mr. DeValera is aiming at."

Other Dublin despatches tonight
record a feeling of optimism and a
disposition to interpret DeValera's
statement, which yesterday caused
much perplexity, as a peace signal.

It is believed apparently in Sinn Féin
quarters that if the British cabinet
invites the Sinn Féin to a conference
the invitation will be accepted. More-
over, it is thought that a few hours
of frank discussion in conference in-
stead of by exchange of letters, would
serve to clear the whole atmosphere.

WILD DUCK FOODS

The majority of the plants which
are so important as sources of food for
wild ducks are, as might be expected,
of those which occur either in water
or in marshes. A few land plants, how-
ever, find a place on the list of which
the principal is "Barnyard Grass" (*Echinochloa crusgalli*). This
is an annual species, introduced from
Europe, which grows well on waste
ground and on the margins of lakes. It
is the seed of this plant which is eaten.

Of importance also are the Smart-
worts (*Polygonum*) most of which occur
on wet soil and have a wide dis-
tribution in Canada.

Of the plants which grow typically
in marshes or swamps, two produce
edible tubers. The Church or Nut-
grass (*Cyperus esculentus*) extends
from New Brunswick to the Great
Lakes while the Waterpot (*Sagittaria
latifolia*) extends across the whole of
Canada.

Other important swamp plants are
the Birr Seed (*Sparganium eurycarpum*),
Bulrush (*Scirpus validus*),
Meadow Grass (*Panicum urticaria*),
And Cord Grass (*Spartina Michauxiana*).
The first three occur all over
Canada, while the last two are found
from Nova Scotia to Saskatchewan. These
and various other species are all im-
portant sources of food for wild ducks.

Occupying a foremost place among
water plants "Wild Rice" (*Zizania
aquatica*) occurs from New Brunswick
to Lake Winnipeg. A full description
is given of it in Bulletin 42, Second
edition of the Experimental Farms
Branch.

Water Celery (*Vallisneria spiralis*)
extends from Nova Scotia to the Great
Lakes. No less important, as duck
foods are the various species of pond-
weeds (*Potamogeton*) most of which
have a wide distribution.

Two species of the Waterlily Family
namely, Water Shield (*Brasenia
Schreberi*) which extends from Nova
Scotia to Manitoba, and the Yellow
Waterlily (*Nuphar advena*), which
extends west to the Rocky Mountains,
are worthy of mention. The seeds
of both of the second species are of im-
portance.

The Pickerel Weed (*Pontederica cor-
data*) is native in Eastern Canada only.

Finally, of importance in salt and
brackish water are the "Tassie-Pond
weeds or Widgen-Grass" (*Ruppia*) and
Belgrass (*Zostera marina*) the latter
of which occurs on both the Atlantic
and Pacific coasts.

The Biological Survey of the Uni-
versity of California, Department of Agriculture
at Washington, D.C., has issued a
number of important bulletins on this
subject.

KING SOLOMON'S QUARRIES

How often great discoveries spring
from trifling incidents! The little
collection comes to mind, and we
hear on hearing how the quarries of King
Solomon were found.

Dr. Allen Moore, for seventeen years a resident
of Palestine, and who has been lectur-
ing in this country, tells the curious
story.

For many years, says Dr.
Moore, travellers and archaeologists
were puzzled to know where the
enormous blocks of stone still stand-
ing in the ruins of Solomon's temple
in Jerusalem were quarried. One day
a little dog chased a lizard down a
slope among the debris. The next

There are more than
**150 brands of baking
powder in Canada; and
the fact that there is more
MAGIC BAKING POWDER
used than all the other brands
combined shows why Magic
Baking Powder is known
as Canada's best
baking powder.**

MADE IN
CANADA

instant the dog also disappeared.
The master, coming to the opening
peered down in vain. He called, and
to his amazement, his voice came back
as from great depths. He summoned
assistance, and a passage was opened
into immense subterranean quarries.
There were found huge blocks of stone
already ready to be hoisted
above ground.
"And don't you remember," said
Dr. Moore, "that we are told in our
Bibles that the temple was built with-
out sound of saw or of hammer? The
fact that quarries were worked un-
derground partly explains that."

Upon some of the stones were
found inscriptions that perplexed the
archaeologists. One scholar pronounced
them Phoenician. The stones were
brought by some of that army of
quarrymen sent by King Hiram of Tyre
to aid King Solomon in his task.

Less Troublesome Adjustments

As a rule the adjustment you get on a
defective tire, doesn't quite satisfy you.
Mainly, we suppose, because we are all
human and want a little more than we
are entitled to.

But even our most private opinions on
the fairness of an adjustment, can find
no fault with the method of settling
claims on Ames Holden "Auto-Shoes."

You are always right with ourselves and
the manufacturer. We personally look after your
interests. There is no needless red-tape, delay or
argument in fixing our measure of responsibility
and your compensation. Ames Holden "Auto-
Shoes" are guaranteed against any defect in

CANADA'S TRADE IN LAST FISCAL YEAR WAS LARGE

Exceeds That of Every Other Year in
Canadian History Except 1918.

Ottawa, September 7.—With the
exception of 1918, Canadian trade for
the fiscal year ending March 31, 1921,
was the largest ever recorded. Such
is the statement made by F. C. T.
Harris, deputy minister of customs and
commerce, in his annual report.

"During the year 1921," Mr. Harris
said, "the value of goods imported
for consumption and of Canadian
goods exported amounted to \$2,429,
222,882, as compared with a similar
trade in 1918 of \$2,602,560,366. From
1918 to 1921 the total value of goods
imported into Canada for consumption
increased from \$982,532,578 to
\$1,340,168,882, while the total value
of Canadian goods exported decreased
from \$1,540,027,788 to \$1,159,163,701,
showing an increase in the imports
from 1918 to 1921, of \$357,636,204 and
a decrease in exports of \$380,864,087."
The trade figures for the year 1921
showed

IN MEMORIAM

In ever loving memory of our dear son, John Frederick Macdonald, who died at Shorecliffe, Kent, England, on September 13th, 1918. Not dead to us who loved him dear. Not lost but gone before. He lives within our memory still. And will for ever more.

Gone from us. Oh, how we miss him. Loving him dearly, his memory we'll keep. Never while life lasts will we forget him—Dear to our hearts is the place where he sleeps.

The circle is broken; one seat is for taken. One bud from the tree of our home life is gone; One heart from amongst us no longer shall thrill

With joy in our gladness, or grief in our ill.

Had I been with him at the last, And watched his dying bed, And heard the last sigh of his heart Or held his dying hand, My heart I think would not have felt Such bitterness of grief; But still the thought he rests in peace Brings sorrow some relief.

Inserted by his parents—
Mr. and Mrs. A. L. Macdonald,
Headlands, Condon.

FOUND—Car Plate No. 24340. Can be had at this office.

FOR SALE—1 Columbia Steel Range, good as new. Apply Alberta Hotel, Red Deer. Sept. 14, 2w.

TO RENT—The store in the Hamilton Block formerly leased by Mr. Ball. Terms reasonable. Apply to Mrs. C. Hamilton, above the store. Phone 297. Red Deer, Sept. 15, 1f.

NOTICE—Practical farmer would lease farm close to Red Deer for term of year; would prefer farm with not less than 150 acres under cultivation. Apply News Office. Sept. 14, 2w.

TO RENT—Front room, furnished, in central location. Board if desired. Apply 168, 2nd St. North, or Phone 215. Sept. 14, 2w.

G.W.V.A. ORCHESTRA

Open for all engagements. Phone 314, Red Deer. Sept. 14, 4w.

MR. EDGAR HIGGIN, Bartone, prepared to visit Red Deer once a week if sufficient pupils can be secured.

For information write 1220, 14th Ave. West, Calgary, Alta. Phone W2567. Sept. 14, 2w.

TENDERS FOR LAND

Acting with authority from owner, I am prepared to receive tenders in writing for the purchase of following land:

N. W. 1/4 Section 3-38-1, W. 5.
S. W. 1/4 Section 3-38-1, W. 5.
S. E. 1/4 Section 3-38-1, W. 5.
N. W. 1/4 Section 35-37-1, W. 5.
Tenders may be for one or more quarter sections of above, or for the four quarters together.

I do not bind myself to accept any tender made.
All tenders will be treated in strict confidence.
Terms to be, one quarter in cash and the balance in three equal payments extending over next three following years.

Address JOHN R. COWELL,
Care of Editor of this paper.

London newspapers generally approve of the last move in the Irish negotiations of a conference with Irish representatives.

WANTED—A good girl for general housework. Apply to Mrs. A. H. George, Michener Hill, or phone 440, P.O. Box 238. Red Deer, Aug. 31.

TO LET—With board, one large front room, suitable for two people; also table board by anyone rooming in the neighborhood. Apply 141, 11th Street North. Phone 408. Sept. 7.

STRAYED—Two weeks ago, two work horses, a dark brown gelding, between 1000 and 1100, star on forehead, fore top partly grown, shed on all four feet, white spot on right side of chest; a light bay gelding, black mane and tail, fore top short, a little white on forehead, shed all round; a little hard of hearing; weight about 1400. Information will be gratefully received by J. Arndt, Pioneer Brick Co. Red Deer, Sept. 5.

A WORD OF APPRECIATION

In connection with the recent robbery at my jewelry store, I wish to publicly express my warmest appreciation of the excellent detective work of Chief Anderson and Detective Scott, A.P.P., and the co-operation of the Edmonton police, by which practically the whole of the goods stolen were recovered so quickly.

A. B. MITCHELL.

What Condition is Your BATTERY

in to withstand the coming frosty nights?

The following indicate the points at which there is danger of electrolyte freezing:—

Specific Gravity	Freezing Point
1.150	6 above Zero
1.185	10 below Zero
1.225	36 " "
1.260	70 " "
1.300	97 " "

Correct Hydrometer readings show how your Battery will stand up. Let us advise you now before the winter sets in.

If Men Did The Washing

Every home would have a washing machine, because poor, weak man knows that his constitution, his good looks and his temper would not stand the wear and tear, the steam and sweat of the family wash tub. Don't ask your wife to do work that would be too hard for yourself. Buy her a washing machine.

Have You Seen Our New Electric Washer?

Equipped with both dolly and rub board, swinging wringer (the swinging wringer will save you much work), safety release, and every modern feature found on the best makes of washing machines. The price is only \$135.00. We believe it is the best value on the market.
